

SENIOR FULLSTACK DEVELOPER

Senior web developer for 19 years, including over 10 years of experience within the IT departments of major corporations (Bonduelle, Decathlon, SNCF, Caisse d'Épargne...). I take full ownership of a web project, from end to end (UX design, frontend and backend development, CI/CD, deployment). Code craftsman, I put my technical rigour at the service of your projects and can guide your team towards a more sustainable web.

SKILLS AND SOFT-SKILLS

Frontend

Angular · Vue.js · Vanilla JS
Development with or without a framework · Creating **design systems** · For applications or websites in **SSR** or **SSG** · **JAMstack** enthusiast.

Backend

Node.js · PHP
Designing **REST APIs** with Node.js or PHP Symfony · Node.js scripts for **DX** and **automation** · *Would love the opportunity to do some Python.*

UX/UI

UX Design · Wireframing
Designing and integrating brand guidelines with **advanced UX** · Creating visual identities · A fan of **CSS Zen Garden** ever since.

DevOps

GitLab CI/CD · AWS
Automated deployments via **GitLab CI/CD** · Meeting standards thanks to **tests and linters**. *Risk-free deployments, even on a Friday.*

AI

LLM · RAG
Claude Code and **OpenCode** · Setting up **skills** and the **harness** · Optimising token consumption and **local AI**.

Soft-Skills

Self-taught · Community leader · Curious
A craftsman of code, I put my technical rigour at the service of your projects and can guide your team towards a **more responsible web**.

KEY EXPERIENCES

JAMGENCY

EDUCATION AND CERTIFICATIONS

UX Designer

In 2014 by Usabilis

Design and ergonomics of software HMIs.

Agile Project Management

In 2013 by Orsys

Introduction to Agile project management and Scrum methods.

Risk Management

In 2013 by Oxand

Internal training on industrial risk management.

HOBBIES AND PASSIONS

I play rugby, ride motorbikes and play squash. And I am a great nature lover: I have a vegetable garden and keep several animals (chickens, trout and snails).
